

PIGMENTO® made to order

Define a PIGMENTO® colour specifically for your project !

Benefits

- A brand new PIGMENTO® offer of customised colours for an exclusive building
- A variety of elegant colours in the PIGMENTO® range
- Easy, standardised management of your colour
- Exclusive, 100% VMZINC® industrial manufacturing
- A solution adapted to suit your project : a large number of systems and thicknesses are available
- 40 years of VMZINC® know-how in the treatment of surface aspect.

Colour creation process

- Creation of a new colour is possible for projects with a minimum of 3 tons (in the same thickness: 0.70 -0.80 – 1.00 – 1.50 mm), i.e. between 300 and 500 m², according to the system and application used
- Shades can be chosen based on a defined colour, or based on PIGMENTO® colours already produced
- Prototypes of the colour requested will be provided within 3 weeks. The time frame for availability of rolled zinc in a new shade is approximately 5 weeks (ex-works in standard packaging, 6 weeks with seaworthy packaging, excluding plant closures)

Applications

- All types of buildings
- For new buildings and renovations
- Facade

VMZINC® Systems

Facade :

VMZ Standing seam, VMZ Overlapping panel, VMZ Flatlock panel, VMZ Sine wave profile, VMZ Interlocking panel, VMZ Mozaik®, VMZ Composite, Make to order corrugated profiles and perforation

Qualité

A pioneer in the treatment of surface aspects, VMZINC® is using its know-how to develop a made to order colour for rolled copper-titanium zinc that complies with European standard EN 988 and the PREMIUMZINC quality label.

If you have a project and are interested in a PIGMENTO® customised colour, contact the sales manager for your region.
